AGROBÍO

Agrobío is a bio-factory that **produces bumblebees for natural pollination and beneficial insects for pest control.**

Founded in 1995 in Almería, has been pioneer in producing bumblebees in Spain. Thanks to its trajectory and location in the heart of crops under plastic, Agrobio has become a reference for Mediterranean agriculture.

We work to accomplish the residue 0 and restore the natural balance, helping growers to obtain healthy and safe products with the highest quality.

PRODUCTION AND LOGISTICS

We have developed production processes with optimum results in quality control, ensuring the strength and vigor of pollinators and beneficial insects.
